

Brown Advisory Summer 2020 Analyst Program

Brown Advisory was founded in 1993 and serves institutional and private clients in 50 states and more than 37 countries and territories from offices in Austin, Baltimore, Boston, Carolinas, Delaware, London, New York, Virginia and Washington, D.C.

While every investment firm tries to attract the most qualified professionals, we place a premium on only selecting those individuals who fit our culture and bring sought-after skills to our team. In fact, each of Brown Advisory's 650 colleagues own equity in the firm.

Our ownership structure aligns our interests with our clients and results, which also reduces colleague turnover.

Every firm has a culture – the values, beliefs, methodology, attitudes and standards that reflect an organization's DNA. But the truly inspiring firms – the game-changers, the industry leaders and the disruptors – have cultures that propel them to innovate and stand out. At Brown Advisory, we aim to be one of those inspired firms. Over the years, we have purposefully built and nurtured our client first culture.

Application Instructions

Please apply directly through Handshake or Brown Advisory's career site: www.brownadvisory.com/en/careers

Brown Advisory is an Equal Employment Opportunity Employer

Brown Advisory's Summer Analyst Program is a ten week program offering positions to undergraduate students who could succeed at Brown Advisory in a full time position after graduation.

Program Overview

This is a paid internship program offering analyst positions in select office locations for motivated, team-oriented students. Designed to be an entrepreneurial, project-based program, analysts have the opportunity to gain exposure to all sides of our business, including:

- Equity and Fixed Income Research
- Hedge Fund Research
- Private Client Investment Management
- Asset Allocation and Manager Due Diligence
- Private Equity and Real Estate
- Institutional Marketing and Sales

Office Locations Accepting Analysts

- Austin, Baltimore, Boston, New York, Norfolk and Washington D.C.

Timeline for Recruiting Process

- August to September | Application Open
- Early October | On-Campus Interviews
- Late October | Super Day in Baltimore

Internship Requirements

- Analysts must have strong writing and analytical skills as well as exceptional attention to detail.
- Students must have completed at least their junior year of college by June 2020.
- Business-related majors and experience are preferred.
- Competitive GPA.
